

Molecular Genetics & Microbiology Annual Departmental Retreat

Friday ♦ October 14, 2011 ♦ Port Jefferson Village Center

10:15am	Chairman's Welcome	
10:30am	Dr. Jorge Benach	The protein composition of bacterial lipid rafts
11:00am	Dr. Andrianus van der Velden	Inhibition of T cells by <i>Salmonella</i>
11:30am	Dr. James Konopka	Signaling and morphogenesis pathways that promote fungal pathogenesis
Noon	Luncheon	
1:00pm	Dr. Kenneth Shroyer	HPV Infection and the Molecular Pap Test: Cervical Cancer
1:30pm	Dr. Ian Hitchcock	The effects of JAK2V617F on Hemostasis and Thrombosis
2:00pm	Dr. Wei-Xing Zong	Targeting protein degradation for cancer therapy
2:30pm	Dr. Janet Hearing	Introductions & Graduate Student Awards
2:45pm	Group photograph & break	
3:15pm	Dr. Nicholas Carpino	Signaling and T cells
3:45pm	Dr. Eckard Wimmer	Genetic recombination between human enteroviruses: implications for the global poliovirus eradication
4:15pm	Dr. Laurie Krug	Connecting the dots: NF-kappaB signaling and murine gammaherpesvirus pathogenesis
4:45pm	Poster session and reception	
5:55pm	Presentation of Poster Awards
