

Department of Molecular Genetics and Microbiology

Cell Death and Human Disease Symposium 2006

Thursday, November 2, 10 AM – 6 PM  
Wang Center

**Speakers:**

**Gerard I. Evan**, UCSF

"Cell Death in Cancer: The Good, the Bad and the Ugly"

**Sally Kornbluth**, Duke University

"Death in the Oocyte: Links Between Metabolism and Apoptosis"

**Scott W. Lowe**, Cold Spring Harbor Laboratory

"Dissecting Tumor Suppressor Gene Networks In Vivo"

**John C. Reed**, The Burnham Institute

"ER Stress and Cell Death Regulation"

**Craig R. Roy**, Yale University

"Control of Legionella Infection by Cell Death"

**Craig B. Thompson**, University of Pennsylvania

"Programmed Cell Death: Apoptosis, Necrosis, and Autophagy"

**Eileen White**, Rutgers University

"Role of Autophagy in Cancer"

**Junying Yuan**, Harvard University

"Studying the Mechanisms of Cell Death: From Apoptosis to Necrosis"

Phone 631.632.8800 for information on the Symposium
