*Stony Brook University Medical Center – Home of the best ideas in medicine.*

# Roll out of Cerner<sup>®</sup> H&P

- EPRs
- Practical demonstration in powerchart<sup>®</sup>

# EPR

Advantages:

Patient:

- Patient record (vs silo records)

- E-prescribing

- Education

- Safety

Hospital:

- Efficiency

- Capturing billing

- Federal incentives

# EPR

## Disadvantages:

Learning curve

Time

Correct information input essential

Down time

## How to:

- Current encounter
- Adhoc charting
- Pre-procedural H&P
- Communicate write 'EPR' on paper chart face sheet near your initials
- Modifiable
  - right click in form browser
- Print
  - right click on unopened document in from browser.
  - Print after anesth consult

## Current limitations

- Height and weight
- Previous procedures ‘disappear’ off screen – but do print out
- ‘No home meds’ doesn’t print
- lots of tweeking still needed
  - Print out
  - Wording to meet regulatory requirements

Thank you for your patience!
