Why Stony Brook?	This program provides the opportunity to rotate through various facilities with strong inpatient and outpatient rotations. The faculty is great and emphasizes teaching. There are a lot of opportunities to do research and present at national conferences. The rotations are structured in a way that you get one-to-one interaction with the attendings, which I feel has been valuable to my training.

Why Stony Brook?	The attendings were very approachable and always available for the residents. The one-on-one interaction between residents and attendings allowed for greater teaching as it allowed for individual emphasis. The atmosphere was always positive and allows for a great learning experience. If I had to do it all over again, there is no doubt in my mind that I would choose Stony Brook
