Responsible Department/Division/Committee:

Graduate Medical Education Committee

Policy:

To establish an institutional policy regarding the financial support/funding of residents and fellows to include benefits and support services.

Adequate financial support of residents and fellows is necessary to ensure they are able to fulfill the responsibilities of their educational programs. Compensation to the residents at Stony Brook Medicine is determined by The State University of New York Board of Trustees. Compensation at affiliated hospitals may be determined separately if those residents are employed by other agencies. Benefits, support services and distribution of resources for the support of education are carried out through the agreements with the appropriate institutions. The established salary schedule for all PGY levels is reviewed by the GMEC yearly.

The written agreement of appointment contains or references information about financial support, benefits, and support services.
