### **Responsible Department/Division/Committee:**

Graduate Medical Education Committee

### **Policy:**

SBUH has established an institutional policy to enable the Graduate Medical Education Committee (GMEC) to monitor and ensure that all GME programs within the institution comply with the ACGME Institutional Requirement and Common Program Requirements regarding the accreditation of all major sites participating in the GME training programs.

### **Definitions:**

None

### **Procedures:**

Stony Brook University Hospital is accredited by the Joint Commission. All programs sponsored by Stony Brook Medicine must be at a primary site which is accredited by The Joint Commission, an entity granted "deeming authority" for participation in Medicare under federal regulations, or an entity certified as complying with the conditions of participation in Medicare under federal regulations.

All major participating sites that provide support to our medical education programs should also be accredited by The Joint Commission, an entity

granted “deeming authority” for participation in Medicare under federal regulations, or an entity certified as complying with the conditions of participation in Medicare under federal regulations.

If Stony Brook University Hospital or another primary or major participating site loses its accreditation or recognition by another appropriate body, Stony Brook Medicine must notify ACGME with an explanation and a plan of response of such loss.
