

“GUIDES” Module:

Goal 1: To understand why we need to screen for risk factors of childhood harm/ injury.

Objectives: 1. What are the categories of well established risk factors of childhood harm/ injury?

2. Give at least three examples from each category.

3. What is the single common denominator of the established risk factors?

Goal 2: To learn the mnemonic “GUIDES” and define strategies for addressing risk factors for childhood harm/ injury in the primary care setting.

Objectives: 1. What does GUIDES” stand for?

2. Give at least two examples of structured questions for each category.

Please complete the “GUIDES” web based educational module located on the Curriculum website under the Community/ Advocacy section.

Note: Take your time viewing the module.

- Review more than once.
- Review the first time in slide –show mode and then the second or subsequent times in non-slide show mode so you can see/ read the “comments” in the comment section.
