

## **Mandatory Professional Licensure Disclosure**

New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or certified in New York State. The State University of New York's (SUNY's) academic programs leading to licensure or certification are carefully designed to meet and exceed these State requirements. Thus, SUNY plays a significant role in protecting the public. Other states frequently have their own licensure or certification requirements; if your goal is to practice in another state, this professional licensure disclosure will help you to determine that state's licensure or certification requirements.

Per U.S. Federal Regulations, §668.43 (2019 Rule), and in compliance with the National Council for State Authorization Reciprocity Agreements' *State Authorization Reciprocity Agreements (SARA) Manual version 19.2*, the SUNY Renaissance School of Medicine at Stony Brook University provides the following disclosure related to the educational requirements for professional licensure and certification.<sup>1</sup>

This Disclosure is strictly limited to the SUNY Renaissance School of Medicine at Stony Brook University's determination of whether its educational program – specifically, the MD degree program – that, if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a state for the practice of medicine.<sup>2</sup> The SUNY Renaissance School of Medicine at Stony Brook University cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards, and are fact-specific determinations.

This disclosure does not provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does not account for changes in state law or regulations that may affect your application for licensure and that occur after this disclosure has been made. Enrolled students and prospective students are strongly encouraged to contact a state's licensure entity using the links provided to review that state's licensure and certification requirements.

---

<sup>1</sup> The terms related to advance practice, including licensure and certification, among others, vary by state and your state may use different terms.

<sup>2</sup> This determination is based on the educational and curricular requirements of each state for licensure (i.e., excluding any special, temporary licensure that may be granted) and does not imply that other requirements for licensure do not exist or have been determined to have been met by this program or that any necessary approvals for clinical placements have been secured at the time of enrollment. Each student should verify their particular situation with their intended state's licensing entity.

The SUNY Renaissance School of Medicine at Stony Brook University has designed an educational program curriculum for the MD degree program that, if successfully completed, is sufficient to meet the licensure and certification requirements for licensing in the following state<sup>3</sup>:

<b>STATE</b>	
New York	<a href="http://www.op.nysed.gov/prof/med/">http://www.op.nysed.gov/prof/med/</a>

The SUNY Renaissance School of Medicine at Stony Brook University has designed an educational program curriculum for the MD degree program, and currently has made no determination that this curriculum is insufficient to meet the licensure and certification requirements for practice in any of the U.S. 50 states and territories.

After making all reasonable efforts, the SUNY Renaissance School of Medicine at Stony Brook University cannot determine whether its educational program curriculum for the MD degree program – that, if successfully completed, is sufficient to meet the licensure and certification requirements for practice in the following states and territories<sup>4</sup>:

Alabama	Alaska	American Samoa	Arizona
Arkansas	California	Colorado	Connecticut
Delaware	District of Columbia	Florida	Georgia
Guam	Hawaii	Idaho	Illinois
Louisiana	Maine	Maryland	Marshall Islands
Massachusetts	Michigan	Federates States of Micronesia	Minnesota
Mississippi	Missouri	Montana	Nebraska
Nevada	New Hampshire	New Jersey	New Mexico
North Carolina	North Dakota	Northern Mariana Islands	Ohio
Oklahoma	Oregon	Republic of Palau	Pennsylvania
Puerto Rico	Rhode Island	South Carolina	South Dakota
Tennessee	Texas	Utah	Vermont
Virginia	US Virgin Islands	Washington	West Virginia
Wisconsin	Wyoming		

To contact a specific state licensing board, please refer to the [Federation of State Medical Boards \(FSMB\) website](#).

<sup>3</sup> If the State does not regulate/license advanced practice, the SUNY Renaissance School of Medicine at Stony Brook University's program has been determined to be sufficient for these purposes.

<sup>4</sup> This does not mean the educational program will not ultimately be approved by the state entity, or that licensure could not result from attending this program.
